Summary

FullStackDeveloper specializing in Java and modern frontend frameworks, experienced in building responsive, scalable web applications using Spring Boot, RESTful APIs, React, and PostgreSQL. Adept at problem-solving, writing clean code, and collaborating in Agile teams with strong communication and a detail-oriented approach.

Technical Skills

Frontend: React.js, Javascript, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Java, Spring, Spring Boot, RESTful APIs

Database: PostgreSQL

Languages: Java

Tools and technology : Git, Github, Terminal, Postman, Chatgpt, Antygravity, Maven, JPA
JWT, HiberNet, Redis, Kafka, OAuth2

Experience

Java Full Stack Intern

June 2025 – Aug 2025

ZidioDevlopement — Bangalore

Worked as a Java Full Stack Intern, developing and maintaining web applications using Spring Boot, Java, React.js, and PostgreSQL. Designed and implemented RESTful APIs, integrated frontend with backend services, and applied JWT-based authentication and role-based access control for security. Contributed to database schema design, optimized SQL queries, and managed version control using Git while collaborating in an agile environment to debug issues and deliver scalable features.

Projects

UdrakalaE-Commerce Project - [Java & React js] [GitHub](#)

- Developed Udrakala, a full-stack e-commerce platform to promote handloom products with secure user authentication and role-based access. Implemented a multi-step product management system including image uploads, pricing, and inventory tracking for artisans. Built RESTful APIs and integrated the database to enable efficient order processing and data management. Designed a responsive and user-friendly interface to ensure a seamless experience across mobile and desktop devices.
- Enabled smooth product browsing and secure checkout to improve user experience.
Applied clean coding practices and Git version control for maintainable and scalable development.

Event-Management-System - [Java & React js] [GitHub](#)

- Built a full-stack Event Management & Booking System using Spring Boot, React, and PostgreSQL, featuring event creation, role-based access (Admin/Organizer/User), QR-code ticketing, attendance scanning, and automated email notifications for approvals and bookings.
- Implemented advanced booking logic with per-person pricing, capacity control, partial payment with minimum %, GST & admin commission calculation, organizer analytics dashboard, revenue tracking, and secure JWT authentication to ensure scalability and financial transparency.

Education

2022 - 2025 Bachelor in Computer Application in Centurion University of Technology and Management, Chatrapur - 7.97

2020 - 2022 Higher Secondary Education (Science) in Arihant Higher Secondary School, Berhampur - 62.5%

2020 Secondary Education (Matriculation) in Saraswati Sishu Bidya Mandir, Chatrapur - 52.83%
