

ADITYA PRASAD SWAIN

Java Full Stack Developer | Spring Boot · React.js · PostgreSQL · AI Integration (n8n, OpenAI)

📞 +91 7815013235 ✉ swainaditya921@gmail.com 🌐 Aditya Prasad Swain 🏠 Aditya Prasad Swain 📍 Berhampur, Odisha, India

SUMMARY

Java Full Stack Developer with hands-on experience building scalable, secure web applications using Java, Spring Boot, React.js, and PostgreSQL. Skilled in designing RESTful APIs, implementing JWT authentication and role-based access control, and developing responsive user interfaces. Experienced with Hibernate, JPA, microservices architecture, Docker, and messaging systems like Kafka and Redis. Familiar with Agile development, Git version control, and clean coding practices, with strong problem-solving skills and a focus on building efficient, production-ready applications. Also skilled in AI-powered automation using n8n, OpenAI API, and RAG systems.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript

Backend: Spring Boot, Spring MVC, Spring Security, RESTful APIs, Hibernate, JPA, JWT Authentication, Microservices

Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap

Databases: PostgreSQL, MySQL

Tools & Technologies: Git, GitHub, Maven, Postman, Docker, Redis, Kafka, Swagger/OpenAPI

Concepts & Practices: Object-Oriented Programming (OOP), Data Structures, MVC Architecture, Agile Development, Database Design, Clean Code Practices, Full Stack Web Development

AI & Automation: n8n Workflow Automation, OpenAI API, Retrieval-Augmented Generation (RAG), GitHub Copilot, Prompt Engineering

EXPERIENCE

Java Full Stack Intern — Zidio Development, Bangalore

Jun 2025 – Aug 2025

- Developed full-stack web applications using Java, Spring Boot, React.js, and PostgreSQL, with AI-assisted coding via GitHub Copilot.
- Built and integrated RESTful APIs for authentication, user management, and product modules.
- Implemented JWT authentication and role-based access control to strengthen application security.
- Designed the database schema and optimized SQL queries, improving response time by ~30%.
- Collaborated in an Agile development environment using Git and GitHub for version control.

PROJECTS

Udrakala E-Commerce Platform | Java, Spring Boot, React.js, PostgreSQL, AI

[GitHub](#)

- Built a full-stack e-commerce platform end-to-end — from database schema and backend APIs to a responsive React storefront — enabling customers to browse, purchase, and track orders online.
- Implemented secure user authentication and role-based access control (admin vs. customer) using JWT and Spring Security, ensuring protected access to sensitive operations like order and inventory management.
- Designed and developed RESTful APIs covering product catalog management, order processing, and user account management, following clean MVC architecture for maintainability.
- Built a multi-step product upload workflow supporting image upload, dynamic pricing, and real-time inventory tracking, reducing manual effort for admins adding new listings.
- Integrated the React frontend with the Spring Boot backend via REST APIs and connected it to a PostgreSQL database, ensuring smooth data flow and consistent state across the application.

Event Management & Booking System | Java, Spring Boot, React.js, PostgreSQL, AI

[GitHub](#)

- Built a full-stack event management and ticket booking platform allowing organizers to publish events and attendees to browse, book, and manage tickets online.
- Designed and developed RESTful APIs for event creation, ticket booking, and secure user authentication, structured around a scalable MVC architecture.
- Implemented role-based access control and secure authentication using Spring Security and JWT, separating organizer and attendee permissions.
- Developed a QR code-based ticket generation system with real-time attendance tracking and automated email notifications, streamlining event check-in for organizers.
- Integrated the React frontend with the Spring Boot backend and PostgreSQL database, delivering a seamless booking experience from event discovery to ticket confirmation.

EDUCATION

Bachelor of Computer Application (BCA)

2022 – 2025

Centurion University of Technology and Management, Chatrapur, Odisha

Higher Secondary Education (Science)

2020 – 2022

Arihant Higher Secondary School, Berhampur, Odisha

Secondary Education (Matriculation)

2020

Saraswati Sishu Bidya Mandir, Chatrapur, Odisha
